

DANIEL HUNT

SCRUM MASTER

ABOUT ME

I began my professional career as a support engineer, and after transferring to a Scrum team I fell in love with the empowerment and efficiency it provided. Now my passion is to spread those values and enable teams to become the best that they can be, and deliver maximum value to their organization.

WORK EXPERIENCE

Scrum Master | Shelter Insurance

January 2020 - Present

- Coach Scrum/Agile philosophies to our two Claims teams, facilitate Scrum rituals, and resolve any impediments they may have
- Create, track, and present a variety of metrics and use them to help the team experiment with ideas for continuous improvement
- Manage collaboration tools and create whiteboards and activities to encourage remote engagement
 - Lead and facilitate Agile Community of Practice

Agile Software Engineer | Shelter Insurance

January 2017 - April 2020

- Implement new Claims application, new features, and bug fixes after production deployment within an Agile team
- Maintain legacy Claims Workstation system and assist with its migration to a new platform
- Write and document a new ETL system to carry transactions from one database to another
